

RETURN TO MANHATTAN TECH CAMPUS FLOWCHART FOLLOWING A COVID-19 RELATED ABSENCE

SCENARIO 1

Lab confirmed or suspected COVID-19
AND
You exhibited symptoms

At least 10 days have passed since symptoms first appeared
and
At least 24 hours have passed since last fever without the use of fever-reducing medications and improvement in symptoms

SCENARIO 2

Lab confirmed COVID-19
AND
You have **NOT** exhibited symptoms:

10 days have passed since the date of your first positive COVID-19 diagnostic test

(assuming you have not subsequently developed symptoms since such positive test)

If symptoms have developed during 10-day period, follow the criteria for Scenario 1.

SCENARIO 3

Potential exposure to lab-confirmed COVID-19
AND
You exhibited symptoms

At least 24 hours have passed since last fever without the use of fever-reducing medications and improvement in symptoms
and
At least 10 days have passed since symptoms first appeared

SCENARIO 4

Potential exposure to lab-confirmed COVID-19
AND
You have **NOT** exhibited symptoms

At least 14 days have passed since the beginning of self-quarantine
(the date you had close contact)
No symptoms have appeared
You have had no further close contact with that individual or anyone else with COVID-19.

However:

If you live with someone with COVID-19 and have not been able to avoid continuous close contact with them, at least 14 days have passed since the person with COVID-19 has completed self-isolation (see #1 or #2 above)

If you live with someone with COVID-19 and have avoided continued contact with that household member, but you have had close contact with another household member who has COVID-19, at least 14 days have passed since the last close contact with this additional household member

SCENARIO 5

Exhibited one or more COVID-19 symptoms:

At least 24 hours have passed since last fever without the use of fever-reducing medications and improvement in symptoms
and
At least 10 days have passed since symptoms first appeared

However:

Student exhibits one or more symptoms of COVID-19, but is not suspected of having COVID-19

Some Examples:

Seasonal Allergies, Ear Infection, Seasonal Flu, Strep Throat, Migraines, etc.

May be possible to return in less than 10 days after onset of symptoms and 24 hours fever free

**Evidence of alternative reason for symptoms and/or release to return required from medical professional*

Manhattan Tech recommends anyone meeting one of the scenarios above to contact their health care provider for diagnosis, treatment and/or testing, as necessary.
